24 The above note has been put up after discussion of the case with me & represents my views also.

25 In view of the political situation in Europe it is doubtful if any students can be sent to England with advantage. The only country to which Students may go seem to be America & some may be sent to suitable universities ~~[illegible]~~. & other institutions there.

26 Even then the lateness of the season from an academical point of view has to be considered.

39 The number of scholarships awardable under the Government Order of 22nd October 1914, is 11, consisting of two Damodar Das, 4 State and 5 Loan scholarships. Of these, one (Damador Das) has already been given for the study of organic Chemistry to Mr. M.G.Sreenivasa Rao, M.A. of the Education Department. The Scholarships still available are therefore ten in number.

40 One point for decision is, whether, in view of the war in Europe, scholars may be sent this year. It is of course, out of the question to send any scholars to the Continent of Europe and even in England conditions are not favourable to study. It is only possible to send some students to America. In view of the uncertain conditions in Europe it is doubtful whether we are to wait indefinitely till the war comes to an end. It seems to be desirable to take advantage of facilities available in America. Even though College and University terms may have begun already, our students sent now may be able to join the institutions in their second terms, or may be able to do a certain amount of preliminary work which will be of help to them, when the regular terms begin next year.

41 We have to select the subjects for which scholarships may be given. Out of the statement of

For the four State scholarships £600, or Rs. 9,000 will be required at the rate of £100, the scholarship amount for 6 months, and £50 being passage money, &c. This sum will have to be provided by reappropriation or by a supplementary grant.

Extract from the Proceedings of the 342nd Meeting of the Council of His Highness the Maharaja, held at Bangalore on the 16th December 191 4.

1. SUBJECT. - (Clause VIII of the Schedule).

Grant of foreign scholarships including one for training a graduate in banking business.

ORDER ... passed.

The following scholarships, Damodar Dass and State, may be sanctioned:-

Mechanical Engineering: - One Damodar Dass scholarship for about three years.

(2) Systems of Education... - One State scholarship for one year.

(3) Banking.....- -Ditto- for 2 years.

(4) Paper Manufacture.....- -Ditto- for 1 year.

All the scholarships may be made tenable in America. The Loan Scholarships may be advertized and the notice inviting applications may state that preference would be given to commercial subjects among those published.

A supplemental grant for the three State scholarships to the extent of about Rs.12,000 may be sanctioned.

A Committee may be appointed consisting of the Inspector General of Education, the Chief Engineer, the Director of Industries and Commerce and the Secretary, E & A., under Rule VIII of the Foreign Scholarship Rules.

D. M Narasinga Rao 17/11

Offg.Secretary to Govt.,
General & Revenue Deptts.

46 In the circumstances explained in my Revised Ways and Means Triennial Forecast dated 16th December 1914 namely, that with the shrinkage under certain heads of revenue the normal budget excluding Capital works will be one of deficit, I am unable to acquiesce in the proposal to sanction the supplemental grant to the extent of Rs.12,000/- for the three State scholarships. —particularly so because the matter is not urgent and, as observed by the First Councillor in his minute of 8th November 1914 -the time is not propitious now for sending out scholars. I am moreover respectfully of opinion that the Damodar Dass Scholarship available should be given for Banking instead of for Mechanical Engineering.

(1) With reference to G.O.No. 763-813/Edn.400-13-1 dated the 22nd October 1914 sanctioning a revised scheme for the grant of foreign scholarships, recommendations were invited from the Heads of Departments as regards the number of scholarships required for each department during the current year and the subjects for which they may be granted. Proposals for the grant of 27 scholarships have been received as per statement put up.

(2) The First Member was of the opinion that the time was not propitious now and that we might call for applications next year.

(3) The matter was then discussed in Council and the Council resolved as follows:-

page 17 of office Note (Edn 2-14)

(i) Four scholarships, all tenable in America, may be granted, one from the Damodar Doss and the other three from State Funds.

(ii) The loan scholarships may be advertised and notice given that preference would be given to commercial subjects.

(iii) A supplemental grant for 3 State scholarships to the extent of Rs.12,000 may be sanctioned.

(iv) A Committee may be appointed for the selection of candidates, consisting of the Inspector General of Education, Director of Industries and Commerce, the Chief Engineer and the Secretary, E. & A.

page 18 of office Note.

(4.) The Financial Secretary, who was consulted as regards the provision of funds, states that he cannot acquiesce in the proposal to sanction an additional grant of Rs.12,000 during the current year as the normal budget will be one of deficit on account of shrinkage under

20

under certain heads of revenue and as the matter is also not an urgent one. The general question of the State of the finances is receiving attention separately.

(5.) The State will derive benefit from deputing these students not at once but after 5 or 10 years. As the scheme has been sanctioned after mature consideratio it is desirable to send a limited number of scholars at once under the rules. I accordingly solicit sanction to the Resolution of the Council.

SIR,

With reference to your letter No. 830-42 of the 26th instant, I have the honour to state that for the present year two scholarships might be granted for the study of subjects connected with agriculture, one for Mycology and one for Entomology. Two further scholarships in Agriculture and Economic Botany respectively should be granted but I think it would be wise to postpone the granting of them for two years at least until men can obtain practical experience here that will ensure their making the best of their opportunities when sent abroad.

2. In connection with the granting of all scholarships for subjects connected with agriculture, I believe it should be laid down as a rule that no scholarships should be granted until the candidate has had practical experience in an Agricultural Department in India and has received a certificate from the Head of the Department stating that he is likely to make full use of the opportunities extended to him. If this is not done I fear there will be grave danger of the scholarship money

being wasted.

Training of selected graduates for Higher Mechanical Engineering.

The graduate to be selected must have obtained in addition to his B.A. a professional Degree from some recognised Engineering College of India, preferably with Mechanical Engineering as optional subject. There would be no good in sending an Arts Graduate to learn elements of Engineering in England. On the other hand, even the selected Engineering Graduate should have at least 2 or 3 years' experience in our own Workshop before he is sent to England. In this case, the requirements of the Department and of the country with its resources will better be realised by the selected candidate and this would be a great advantage in every way.

2. It is therefore very desirable that some of the Sub Assistant Engineers of the Department should be selected and sent to England with necessary and sufficient encouragement by way of scholarships and improved future prospects after their return to Mysore. With this view, all the officers in the Department were asked to

17

state which of them are willing to proceed to foreign countries for higher training in Mechanical Engineering.

3. Mr.K.Srinivasa Iyengar, Mr.Ganesh Iyer and Mr.Venkatasubba Rao are the only three men who have volunteered to undergo higher Mechanical training in foreign countries. But of these, Mr.Srinivasa Iyengar says he can only go out after 4 or 5 years on account of his own domestic considerations, while Mr.Venkatasubba Rao, who has only put in one year's service in the Department, says he would like to gain experience in our Workshop for 3 or 4 years before proceeding to England. Thus there is only one candidate Mr.Ganesh Iyer who may be selected and sent out immediately. Next year, after a fresh recruitment of men, the proposal would again be put forward before all likely men and one or two more names will be suggested.

4. As regards the period of training, it is considered quite essential that the selected candidate should be made to tackle all sorts of works in a general Workshop for at leat 4 or 5 years, if it is desirable to get a really efficient training, so that the selected candidate after his return may take the initiative in developing the work entrusted to him.

5. As soon as this proposal is approved further details will be settled in consultation with Mr.Ganesh Iyer.

B a n g a l o r e.

To

C.S. Balasundaram Iyer, Esq., B.A.,

Secretary to the Government of His Highness the Maharaja of Mysore, Departments of Education and Agriculture,

B a n g a l o r e.

Sir,

With reference to your letter No.830-42/Edn.2-14 dated 26th October 1914, I have the honour to state that under Group 8 of Rule X of the rules relating to the grant of Foreign Scholarships sanctioned by the Government in their Order No.763-813/Edn.400-13-1 dated the 22nd October 1914, one scholarship may be offered this year for the study of Co-operation in Europe including Ireland.

2. My Assistant Mr. R. Ranga Rao has returned from a course of study of the subject in Europe and is making himself useful to the Department. Mr. K. Ramiah is, I believe studying the subject in Europe, holding one of our scholarships. But the Co-operative Department is growing rapidly and will soon require the services of three

three Assistant Registrars of the rank of Assistant Commissioners, who will look after the development of about 300 Co-operative Societies each as in British India. Young men aspiring for these positions may well be given opportunities of fully qualifying themselves for the posts by a world-wide study of their special subject of Co-operation.

3. I may be permitted to add that I have just yet no application for the scholarship. Nor do the European conditions favour the despatch of students immediately to the Continent. The scholarship may perhaps be granted as soon as the war ceases.

4. Under the circumstances stated above, it is unnecessary at the present moment to elaborate in full detail the various special subjects comprised under the general heading "Co-operation in Europe", for which I have recommended the grant of a scholarship this year. The subject will however include generally,- Economics, Banking, Business methods and Accountancy, Co-operation in relation to Credit, Purchase, Purchase and Sale, Production and Sale, Insurance, Agricultural Co-operation and Industrial Co-operation and their theory and practice in the various countries of the continent of Europe, Great Britain and Ireland.

5. I would also recommend under Rule VIII (b) that the candidate selected may be required to undergo a period of probation and preliminary training in Mysore and India for six months.

I have the honor to be,
Sir,
Your most obedient servant,

M.A. Narayan Ayangar.

Sir,

In reply to your letter No. 830-42/Edu2-14 dt 16th ult, I have the honor to state that so far as the needs of the Department are concerned I would suggest two scholarships one for practical horticulture and the other for the study of the 'Industrial Planting'

The first would chiefly aim at a good training in fruit cultivation and fruit utilisation besides the general work in horticulture which would enable the scholarship holder on his return to supervise the Fruit nurseries, take up the training of the horticultural students in their practical work and occasionally to go out to advise in the districts. His training should be if possible three years viz. two years in England of which part would be spent in Kew and part in the a large fruit growing business while a third year should be spent in a place like the Government Nurseries in the Philippines where the cultivation of tropical fruits is being largely developed.

The second scholarship would aim at training a man practically and theoretically in the cultivation and utilisation ~~in the~~ of industrial crops such as Coconuts, Camphor, Drugs, Essential and other oils &c. all of which we are desirous of introducing into cultivation here. The training should also be preferably extend over three years. 18 months should be spent in the east to actually

actually work in several plantations in the Malayas, Philippines, &c. and get thoroughly acquainted with the cultivation work and also the preparation of the raw products for the market and the other 18 months should be spent in Europe firstly in working in the Rose Oil Districts of South Europe and in drug growing districts of Kent while finally six months should be devoted to study in the Laboratories of the Imperial Institute of London the physical and chemical nature of the product, the differences of their quality and their utilisation in various industries. This study will be augmented at the same time by visits to some of the larger warehouses and -- factories.

The scholar on his return should be competent to supervise the nursery work, go into the districts to assist prospective planters in the starting of plantations and to take up the training of the Horticultural students in economic Botany. I would strongly urge that the possibility of the industrial crops and their important bearing on the development of Indian Industries be recognised. Much has been done in the introduction and propagation of new plants but unless some trained establishment is provided it is not possible to arrange to grow them on larger scales to assist "planting" on commercial lines and to train men fit for taking such plantations.

If Government will see their way of sanctioning these two scholarships I will work out and submit further necessary details.

I have the honor to be,
